Dear All,

The National Task Force for COVID-19 has constituted the following research groups to identify the research priorities and quickly initiate research studies.

1. Clinical Research Group
2. Research on Diagnostics and bio-markers
3. Epidemiology and surveillance
4. Operations Research
5. Vaccines/Drug Research and Development

The composition of these groups and TORs are enclosed. The Chairs of these groups will convene meetings of the respective groups through video-conference to identify research priorities, develop research protocols and identify partners institutes for initiating studies.

I request you to kindly convey your willingness to be a part of the above-mentioned research groups.

With regards

Yours sincerely,

(Balram Bhargava)
